

BUILDING OPERATIONS IN NORWICH

The past week with the exception of the last few days was ideal building weather and much was accomplished during the first part of the week. Not only in Norwich is there much building going on but in the surrounding country new buildings are rapidly springing up. One of the largest projects is at Montville where the Thomas Realty Co. is erecting six houses. The houses are for the employees of the Robert Gair Company and will be of a modern semi-detached type. The foundations for all of the houses have already been laid and the superstructure will be set in place during the coming week. The foundations are of stone and concrete. The Thomas Realty Co. of Springfield has the contract.

The work on the Disco building on Ferry street is well along. The foundations having been put in and the structural steel work has been set in place. The brick work is rapidly assuming proportions. The Peck, McWilliams Co. has the contract.

The V. M. C. A. building on Main street is being rushed along and the contractors are now engaged in stalling the large swimming pool which was a gift of a public spirited citizen.

At East Great Plain several new dwellings are in the process of erection. In lower Montville there are several more. At Norwich Town and in the Greenview and Fairview sections of the town much building is being done. The alterations on the property of Mrs. Nellie T. Hill, 81 Union street, are nearly complete. A modern swimming pool, 12 ft. x 4 ft. and sitting room, 6 ft. x 10 ft. mirror have been completed. Contractor John C. Tracy has charge of the work.

NEW LONDON. The contract for the mill work has been let to a Worcester firm, and the steel work to the American Bridge Co. by the H. Wales Lumber Co. for the proposed

THE VOYAGE OF LIFE

A good number of men and boys assembled at the local Y. M. C. A. Sunday afternoon at 4 o'clock. The service opened with several selections by the church orchestra, after which hymns were sung with orchestra accompaniment. Physicist Director E. J. Fritz led the assembly in reading the story of the voyage of life. Moving pictures of a trip across the ocean on the great liner Olympic were shown, also a very interesting and realistic reel on the life of George Washington.

Between the seals Secretary Edwin Hill made a brief talk and among other things said: "I have often wondered why there were so few serious accidents at sea considering that so many craft every year cross the mighty ocean. Among other reasons are these: First, of all, these men must have a pilot, the very best material and by the best workman, that they stand the terrible strain of storm and tempest. Then when the vessel is ready for the trip, there must be great care in the selection of a captain. He must be a man of intelligence, and one who has passed the grueling tests for such a position. He must know what to do in any and every emergency. Then the selection of a pilot is very important, for millions of lives every year are entrusted to the pilots of these great craft. The pilot must have his chart, so that he knows the course without any question. He must also have his compass, with the needle, always pointing true to the north. The pilot must know every minute, day or night where he is on the voyage. A liner thus equipped with competent men and instruments generally reaches her destination.

So on the voyage of life there are certain conditions necessary if the voyage is to be a successful one. First of all our lives must be built on the only sure foundation ever, God Almighty. He has a plan for every life and the reason why so many lives are dashed to pieces upon the rocks is because they break away from the plan of God for them. Then we must have our pilot, and the pilot we must have is none other than Jesus Christ Himself. He has sailed the sea ahead of us and knows every inch of the way. How wonderfully he leads us. You recall how when He and His disciples were on the little boat and a tempest arose, and the Master was sleeping, they hurriedly awoke Him, and He stretched His holy hand over the sea and said, "Peace be still," and there was a great calm. Then we must have a chart, but also, many have forgotten to consult the only safe chart, the great book of God, the Bible. There is not a problem but that it will help us solve; there is not a hard condition, but that we can find a promise in the blessed book, that will help us. We must also have our compass, and that may be said to be a clean, true conscience, touched and led by God Almighty. Only as we are thus equipped, can we expect to have safe and successful journey over the stormy sea of life. The reason why George Washington was the man he was, and lived and served so well was because he was a follower of this same God, and he often consulted Him in prayer. So let us more and more follow the leadership of the only safe guide.

The moving picture machine was operated by Boys' Secretary Davis.

Unable to Sleep— Depressed and Nervous Quickly Relieved by Wincarnis

"I wish I had known about Wincarnis sooner, for, judging by what it has so quickly done for me, I am sure it would have spared me many months of misery," so spoke Mrs. W. A. Smith of 2967 N. Van Pelt St., Philadelphia, Pa. recently.

"For several years I had been in a weak and run-down condition. I had frequent fainting spells which always left me in a state of almost complete exhaustion. I suffered with nervousness to such an extent that the least little thing would make me jump and it got to be almost impossible for me to get a good night's sleep. I would often get terrible fits of depression which would last for days at a time. I had taken doctors' medicines and tonics without number, but nothing seemed to do me much good.

"Not long ago I saw Wincarnis advertised in the 'Philadelphia Inquirer.' I had seen it displayed in the drug-stores so I decided to try a bottle. I am mighty glad that I did and I want to say that Wincarnis is everything that is claimed for it and I cannot praise it too highly. It is truly remarkable how quickly it benefited me. In an incredibly short time I got back my strength, my nervousness disappeared and I could sleep peacefully as a child. I really believe that Wincarnis is the greatest of all tonics.

Wincarnis is sold in Norwich by all first class druggists

CIRCULATING PETITION FOR VOTE BY THE MACHINES

In all six districts of the city, those who want to upset the majority vote of the town meeting of last Wednesday night, that favored daylight saving hours for Norwich are circulating petitions that will be presented to the selectmen asking to have another town meeting called at which the vote will be on the voting machines.

The petition reads as follows: Whereas, the opinions of our citizens are more acutely divided than ever before on the question of using standard time, as prescribed by our statute law, or using so-called daylight saving time, as urged by groups of citizens, and provided for so-called daylight saving time promises to work great harm in our economic life; promises to work great harm in our educational life; and the injury to the health of thousands of school children, promises to work great harm in our religious life, as well as promises great harm to the morale of our citizens generally, and

Whereas, hundreds of our citizens wishing to vote on the time question under discussion at the town meeting of May 3, found it impossible to do so because of inadequate voting facilities provided for the unexpected gathering of citizens there assembled, now,

Therefore, we, the undersigned voters of the town of Norwich, Conn., do hereby petition the board of selectmen of the said town of Norwich to call a special town meeting for the purpose of providing for a special voting day wherein the voters of said town of Norwich may vote in their usual voting districts in the usual manner with voting machines upon the question of using standard time throughout the town of Norwich.

The petition has not yet reached the selectmen but will in a few days, according to those who are circulating it, most of whom are interested, it is claimed, in agriculture or market gardening. In advance of receiving the petition, First Selectman C. E. Bailey and Town Counsel H. H. Pettis declined Monday to make any statement as to what their action would be when the petition is received by them or to say whether such a vote by machine could be called for.

SOLDIER AND WOMAN FOR TRIAL IN SUPERIOR COURT

Charged with adultery, Charles R. Leehr, a soldier in the U. S. army, stationed at Fort H. G. Wright and Mrs. Carrie E. Devaux, wife of Archie Devaux of Fairhaven, Mass., appeared in Groton court Monday morning. They were arrested Saturday night at 808 Thames street, Groton, where they have been living together for some time past. Capt. George V. Smith and John A. Mutch of the police force made the arrests. The couple were committed to the lockup until Monday morning. In court before Judge C. C. Costello the case was bound over to the September term of the superior court.

Both the accused, when the charges were stated by Prosecuting Attorney Warren B. Burrows, pleaded not guilty.

After testimony by her husband and the officers Mrs. Devaux told the court that she had been living with the soldier since April 1 and admitted going under the name of Mrs. Charles R. Leehr. She said that she took the name of Leehr because she didn't want her husband to find her, and that she didn't think it was a crime although she admitted that it was a foolish thing to do. She charged her husband of having threatened to take her life while in Fairhaven, for which reason she claimed to have left her home there.

The court then bound the case over to the September term of the superior court, each of the accused being placed on bonds of \$1,000 each. Burrows told the accused he would stand as a surety for the case to be held at the present day term of the court.

The two accused were then taken to the jail in New London till bonds should be furnished.

NEW \$100,000 MONTVILLE PAPER CO. INCORPORATED

Fleischmann's fresh yeast helps digestion and cleans a coated tongue

THOUSANDS of men and women have found relief from various digestive disturbances by eating Fleischmann's Yeast.

It is human nature to want to find out "why." So far as science can tell us this is the reason:

Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself. It promotes the flow of bile and of pancreatic juice. It has a remarkably beneficial effect on the whole digestive system. It cleans a coated tongue.

Try Fleischmann's fresh yeast in orange juice or, if you prefer, in milk. Men like it in milk shakes and malted milks. Women like it spread on bread or crackers.

Keep your digestion in the pink of condition and your tongue clean and healthy by eating 1 or 3 cakes of Fleischmann's Yeast fresh every day before or between meals. Get Fleischmann's Yeast fresh daily from your grocer.

The familiar tin-foil package with the yellow label is the only form in which Fleischmann's Yeast is sold
